

PTC- Cartridge Heater Type PSS

Type PSS Self-regulating heating element,
Round shape with silicone casing

Features Compact design
Simple mounting
Excellent heat transfer as silicone case expands when heated
Various performance ranges available

Diameter of Casing	6,5 - 17,1 mm
Length of Casing	up to 60 mm
Length of Fibreglass Sleeve	30 mm
Length of Lead Wire	100 mm / 300 mm
Temperature Range	up to 200°C
Power	up to 100 W
Voltage Range	110 - 240 V (12 - 24 V possible)

VDE - Certificate Nr. 40011223,
Protection class I (DIN EN 60335-1)

VDE - Certificate Nr. 40011217,
Protection class II (DIN EN 60335-1)

UL - File Nr. E66892
