Snap-on hooks, locks

SL RH

Snap-on hook

- Simple, vibration-proof mechanism for SL 5.08/90B male connectors and BL 5.08 sockets.
- Male connector must be B-version with dovetail.

STVS RH

Snap-on hook

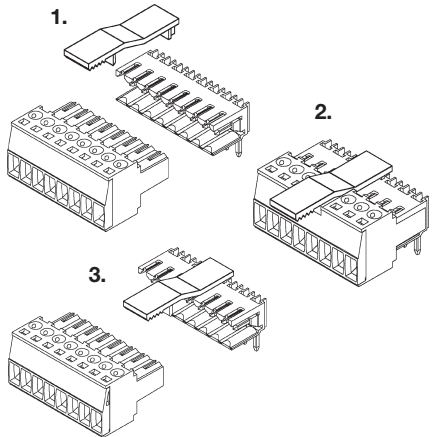

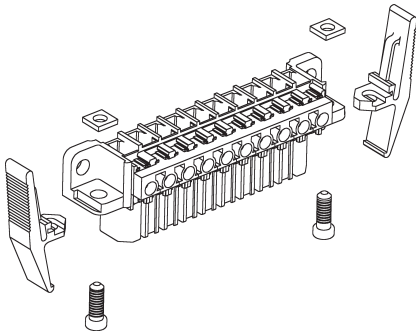

- For vibration-proof plug-in connections that can still be disconnected quickly and simply.

BL/SL 3.50 VR

Lock

- Simple, screw-less, vibration-proof mechanism for all single-row male connectors in conjunction with the standard 180° screw terminal socket connector BL 3.5.
- 2 VR locks are recommended for plug-in connectors with more than 8 poles.

SLA BB14

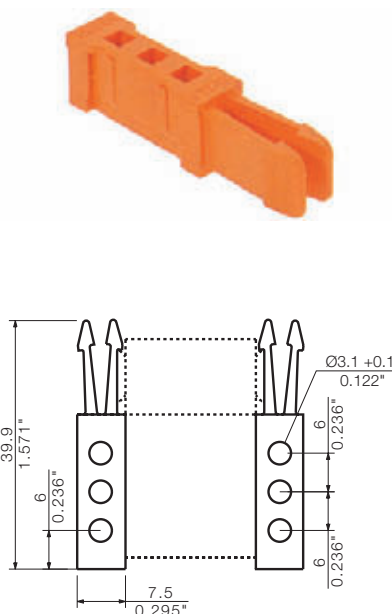

Special fixing block

- Provides additional mechanical support for rows of male connectors on the PCB
- Also enables vibration-proof connections for the matching socket connectors.
- BB12 fixing blocks or an integral screw flange are required for the socket.

SLA BB RH

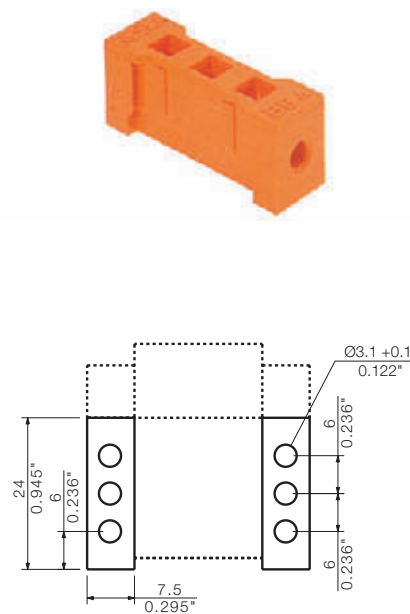

Special fixing block

- The retaining clips ensure a vibration-proof connection between plug and socket.
- Socket must be B-version with dovetail.

SLA BB4

Special fixing block

- Ensures a secure screw connection to the socket connector.
- BB2 fixing blocks are required for the socket.

LPA TR

Disconnect element

**Technical data**

	VDE	UL	CSA
Rated voltage	250 V	300 V	300 V
Rated current	9 A	10 A	10 A

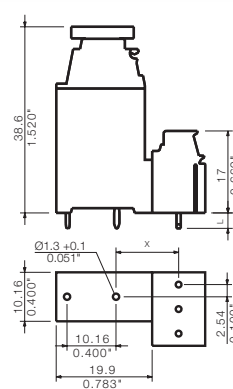

- Can be fixed to the rear of all LP 90 terminals.
- DEKAFIX markers not included.
- Plug can be marked with WS 3 tags (not included).

Ordering data

Type	Y (mm)		Qty	Order No.
	with LP	with LPP		
LPA TR	12.8	15.2	100	1495460000

LPA SI

Fuse element

**Technical data**

	VDE	UL	CSA
Rated voltage	250 V	300 V	300 V
Rated current	6.3 A	10 A	10 A

- Can be fixed to the rear of all LP 5.08/90 terminals.
- Takes 5 x 20 or 5 x 25 cartridge fuses (DIN 820, IEC 127-2).
- Power loss = 1.6 W
- DEKAFIX markers not included.

Marker carrier, LED holder

LPA BZ

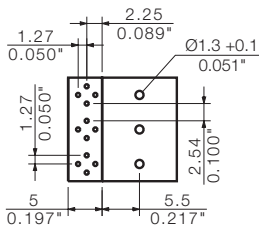

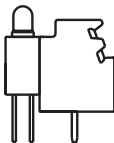

Marker carrier

- Improves the marking of LP series terminals.
- Simply fixed to the back of the terminal.
- WS 10/5 and WS 12/5 markers not included – see “Accessories” chapter.
- LEDs not included.

LPA FA

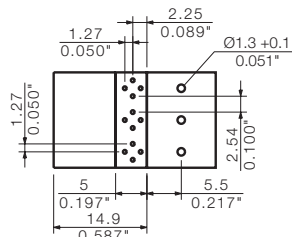

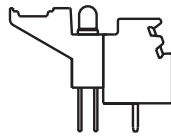

LED holder

- Holder for standard 3 mm LEDs.
- Raised mounting position improves visibility of LEDs.
- Simply fixed to the back of the terminal.
- LEDs not included.

LPA FA BZ

LED holder with marker carrier

- For additional marking and fixing of three LEDs.
- Simply fixed to the back of the terminal.
- WS 10/5 and WS 12/5 markers not included – see “Accessories” chapter.
- LEDs not included.

KSW 4 / KSW 2.5

Marking strips

Minimate Range
Omnimate Range
Unimate Range

KSW marking strips are suitable for labelling multi-pole PCB terminals and connectors.

The white, self-adhesive strips are made from a non-PVC, environmentally friendly material. These marking strips provide individual printing, i.e. are suitable for every pitch. Available in two widths: 2.5 and 4.0 mm.

Technical data

Material data

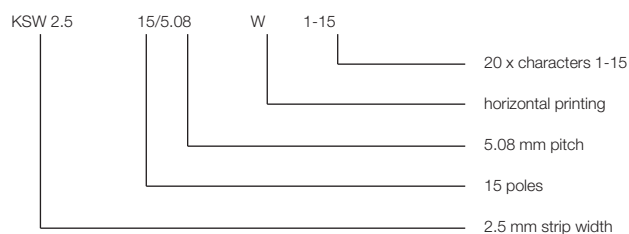

Material	polyester with white surface
Adhesive	acrylic base
Temperature range	-40 °C to +150 °C
Min. bonding temperature	+4 °C
Flammability	self-extinguishing after 15 s

No. of marking strips per sheet

up to 20 poles = 20 strips per sheet

* more than 20 poles = 15 strips per sheet

Ordering example

Order No. **1630060001**

Wiring the module

1.

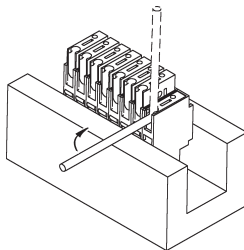

Insert conductor as far as possible.

2.

Insert screwdriver into centre opening and press down.

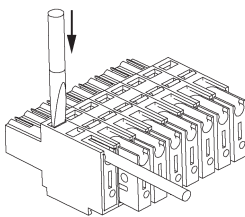

3.

Module is engaged and conductor is now connected.

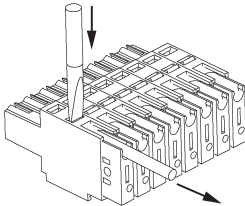

Detaching the module

1.

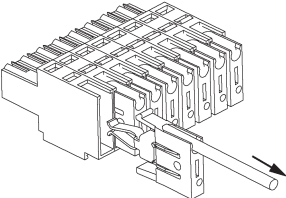

Insert screwdriver into first opening and press down.

2.

Insert screwdriver into second opening and press down.

3.

Module is now disengaged and can be pulled out.

Tension clamp terminal tool

Tool for PCB terminals with tension clamp connections

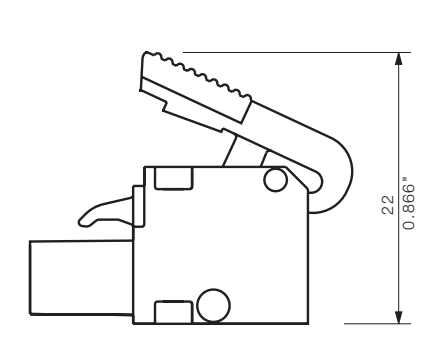

SD 0.6 x 3.5 x 100
(DIN 5264-A)

You do not need any special tool to connect or disconnect our tension clamp connections. The opening is designed to accommodate a standard 0.6 x 3.5 x 100 screwdriver to DIN 5264-A (with flat blade), also available from Weidmüller.

BLZF BW-S

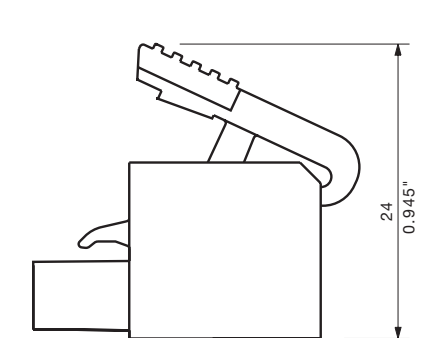

Clamp actuator

- A useful aid for operating the clamping mechanism of BLZFS and SLZFS plug-in connectors

BLZF BW-B

Clamp actuator

- A useful aid for operating the clamping mechanism of BLZFS and SLZFS plug-in connectors

ZRH 1.5

Reducing sleeve

- For flexible conductors only
- Prevents the conductor been inserted too far into the terminal
