Plastic cable ties

Cable ties

Technical specification

Material

UL 94 flammability class

Polyamide 6.6

V2

CB cable ties provide fixings for cables and markers for special requirements. They are especially suitable for fixing CLI M, SFX, WKM and WKS cable markers. The material consists of unbreakable polyamide PA 6.6 with UL94 flammability rating V2.

Steel cable ties

WeidSteel

Technical specification	
Material	Stainless steel 1.4304
Temperature, min.	-80 °C
Temperature, max.	538 °C

- WeidSteel has a comprehensive range of steel cable ties for extreme material stresses caused by, for example, high temperatures or chemical reactions.
- stainless steel to DIN AISI 304,
 - easy and secure installation by way of patented closure,
 - patented, rounded edges so risk of injury,
 - deal for outdoors,
 - corrosion-and radiation-resistant,
 - anti-magnetic,
 - no serrations so no damage to the insulation.

Accessories - tools

- WSM-Tool automatic**
WSM-Tool automatic is used to tighten steel cable ties and afterwards cut off the surplus end of the tie in one operation.
- WSM-Tool manual**
WSM-Tool manual is used exclusively for tying steel cable ties, afterwards the tie can be cut back by twisting it through 90°.
